

Diploma of Information Technology (Front End Web Development)

National ID: ICT50220 | State ID:AC26

Build a career working with the world of the web

Websites are a crucial aspect of any organisation across all industries. The **need for talented and skilled developers is high**, so once you've completed your qualification in website development, your options are endless.

The ICT50220 Diploma of Information Technology (Front End Web Development) course covers the whole life cycle for commercially ready websites and gives you the opportunity to **work on live projects**. At this level you develop skills that mean **you are industry ready**, from conception, liaising with clients, documentation, graphics, coding, testing to training of users. You'll be able to utilise **project management techniques** and **develop advanced soft skills** such as communication with clients through team work to produce the end product aligned with business needs. Independent thinking and problem solving skills developed within your Certificate IV course are further enhanced with real life client projects.

Our graduates are confident, job ready and sought after by industry because of the specific skills they have gained at North Metropolitan TAFE. **Many have employment by the time they graduate.**

New students who have not studied the course that precedes this qualification should contact the area to ensure they apply for the correct level of study.

Your qualification prepares you for roles such as:

Web Master, Website Administrator and Web Developer

Further Study Option(s)
