Certificate III in Animal Care Services (Pet Grooming)

National ID: ACM30122 | State ID:AD93

Pet grooming is an important part of ensuring the overall health, hygiene and happiness of domestic animals. If you want to make a career out of your passion for our furry friends, this course will provide you with specialised training in all aspects of pet grooming services.

Learn from our team of experienced lecturers who can guide you to build a solid skillset in pet grooming, which will qualify you to work under supervision in a pet grooming establishment. Grow your knowledge in providing a high standard of hygiene grooming for domestic pets including washing, brushing and drying dogs, cleaning ears, using grooming tools and equipment, as well as specific grooming for different dog breeds and coats.

This is the most comprehensive qualification for pet grooming in Australia, and you'll gain job ready skills for employment in any facility offering pet grooming services including, mobile or shop front salons, veterinary clinics, boarding kennels and pet retail outlets.

Students must have a genuine empathy for animals along with the communication skills and physical ability to successfully perform work placement in the pet grooming industry.

Study in specialist facilities

Our Murdoch campus has a dedicated Pet Grooming Clinic open to the general public which provides a simulated workplace environment. Students can gain hands-on experience in a real-life setting serving clients, taking care of animals and advancing their skills in pet grooming.

Work placement is mandatory for completion of this course. SM TAFE will arrange a suitable work placement within industry for you which will involve your attendance at a workplace.

Your qualification prepares you for roles such as:

Pet Groomer
