

# Advanced Diploma of Screen and Media (Animation and Visual Effects)

National ID: CUA60620 | State ID:AC88

## The Animation and Visual Effects industry awaits

This twelve-month course is the last stage on your pathway towards a career in Animation and Visual Effects. This course is designed for students who have completed the CUA51020-AC87 - Diploma of Screen and Media (Animation and Visual Effects) or university media graduates.

A large proportion of this course has you working in a studio environment on real professional productions for industry including TV series and **feature films**. You'll also highly refine your skills in **3D animation**, **2D animation**, **sound**, and **writing**.

You will learn new skills in pre-visualization and virtual production, and undertake the process of developing an idea and pitching it.

Graduates take with them a high-level showreel comprising of **AAA level work**, **feature film credits**, experience working with **real production clients**, and the skills and confidence to work in the Animation and Visual Effects industry.

## Gain these skills

- 3D animation, lighting and rendering
- 2D animation
- Visual Effects and Post production
- Virtual production
- Sound
- Writing
- Studio work
- Concept design and pitching

## Your qualification prepares you for roles such as:

- digital artist,
- freelance or studio animator,
- technical artist,
- story development,

- visualisation of all kinds,
- AR and VR development,
- animation and effects post production, and
- creative project management
