

Diploma of Beauty Therapy

National ID: SHB50115 | State ID:AWO6

Are you interested in the science behind beauty?

The beauty industry is rapidly evolving to accommodate latest technologies - and a large part of this is laser skin and hair removal. This area of work requires therapists to have specialised dermal qualifications. This diploma opens graduates to a range of employment opportunities, as well as advanced dermal science qualifications.

You will be trained by industry specialists in the latest dermal cosmeceutical skin care. This course has STEM skills with a focus on technology and science in addition to the creativity of beauty care.

Gain these skills

- microdermabrasion
- specialised skin peels
- IPL and laser safety protocols
- facials and specialised facials
- make-up
- body massage
- waxing
- lash and brow treatments
- aromatherapy
- spray tanning
- lash extensions
- skills in retail and sales operations
- reflexology
- Indian head massage
- hot stone massage

On completion of this course you will gain the Laser Safety Officers Certificate required to perform IPL and laser treatments in a salon or clinic.

Your qualification prepares you for roles such as:

Senior Beauty Therapist | Beauty Salon Manager

Other job titles may include:

- Salon Therapist
- Day Spa Therapist
- Massage Therapist
- Sales Representative (retail skin-care and cosmetic products)
- Beauty Salon Owner | Small Business Owner
- Industry Educator or Trainer

Further Study Option(s)

Diploma of Screen and Media (Creative Make-up)
