

# Certificate III in Dental Laboratory Assisting

National ID: HLT35115 | State ID: AYY4

Does a career in the Dental Technology Industry make you smile?

When you complete the Certificate III in Dental Laboratory Assisting you will be ready to start a career in the busy dental technology world, as a **laboratory assistant** helping dentists and dental technicians to construct, repair and adjust dental appliances.

You will gain the career enhancing knowledge and skills to work as a member of the dental laboratory team. With the skills that you develop in this course you can transfer into the HLT55115 Diploma of Dental Technology as an apprentice in a dental laboratory.

The Certificate III in Dental Laboratory Assisting includes supervised work skills in a **simulated dental laboratory** at our newly fitted out Dental department at our conveniently located **Leederville campus**.

Your qualification prepares you for roles such as:

Dental Laboratory Assistant

Further Study Option(s)

Diploma of Dental Technology, Certificate IV in Dental Assisting
