

Advanced Diploma of Interior Design

National ID: MSF60118 | State ID:BED2

It's what's on the inside that counts

This qualification will give you the practical skills and knowledge to find **creative and technical solutions** for built interior environments.

Interior design includes planning and detailing complex residential, hospitality, retail, commercial and institutional **design projects with an emphasis on space creation and spatial planning**. Interior designers consider aesthetics, function, branding, manufacturing, marketability and construction of **interior spaces**, including materials and sustainable environments and special needs for the benefit of the user.

You will learn to **adapt to global design trends** and **technical innovations** while **developing contacts** with interiors sources, products, and suppliers.

Gain these skills

- Work on design projects
- Consider aesthetics, functionality, space planning, construction, materials and finishes
- Complete designs for commercial/institutional interiors
- Create digital presentations
- Research and keep up with current design trends
- Develop sustainable designs

Your qualification prepares you for roles such as:

Interior Designer, Self-employed Design Consultant, Design Project Administrator and Design Manager.

Further Study Option(s)

The Advanced Diploma of Interior Design is a great precursor to further study at University.
