Certificate IV in Information Technology

National ID: ICT40120 | State ID:BFF9

Launch yourself into a future-proof IT career

When you complete the Certificate IV in Information Technology you will gain career enhancing knowledge and skills to support a wide range of growing information technology fields. You will be an attractive applicant for in-demand roles such as ICT systems support, web and database support, cloud administrator and big data analyst.

Gain these skills:

- Cloud services
- Big data capture and analysis
- Database creation
- Web development
- Networking and hardware
- Programming, ethics and privacy, cyber risk management, critical thinking, new technology research, teamwork and client support.

Your qualification prepares you for roles such as:

Systems support person | Website and database administrator | Cloud administrator | Data analyst

Further Study Option(s)

On completion of this course you will have four units of credit towards ICT50120 Diploma of Information Technology, significantly decreasing the overall diploma tuition fees with just one additional semester of study after this course. Completion of the diploma allows you to join the growing areas of cloud architecture and cloud engineering.
