

Diploma of Building and Construction (Building)

National ID: CPC50220 | State ID: BGE4

We've been producing skilled construction workers for over 50 years – making us the perfect choice for your training

This Diploma has close ties with the Department of Mines, Industry Regulation and Safety - Building and Energy - Building Services Board. You'll gain the skills and knowledge to work in building management, production teams and the operations workforce to manage constructions from a small building business through to medium rise constructions.

Gain these skills

- Building codes and standards knowledge
- Structural principles
- Medium size building project management
- Supervise construction-planning processes
- Legal obligations
- Contracts
- Monitor costing systems
- Develop policies and procedures
- Builder's office operation and production

Your qualification prepares you for roles such as:

Building | Registered Builder | Project Builder | Building and Construction Manager
