

Advanced Diploma of Surveying

National ID: CPP60121 | State ID:BGJ0

Looking forward to a career in surveying?

Learn how to **collect and analyse spatial data** for complex engineering structures, roads, railways and surface and underground mining operations.

Throughout this course you'll learn about the **operation of sophisticated surveying equipment and software** (including GPS) and the processing of survey data to produce computer aided engineering drawings and mine plans, **building on the skills gained in the Diploma of Surveying.**

Gain these skills

- Conduct advanced GNSS control surveys
- Conduct complex engineering set-out surveys
- Conduct open pit and underground mine surveys
- Manage risk
- Monitor engineering structures

Your qualification prepares you for roles such as:

Surveying or Spatial Science Technician | GIS Technician

Further Study Option(s)

Graduates may be eligible for university entry.
