

Certificate IV in Aviation (Aviation Supervision)

National ID: AVI40120 | State ID: BGN0

Are you ready to take-off into the airport or airline industry?

This qualification will provide you with technical and non-technical aviation skills to operate effectively in a broad range of ground operations and service roles. When you complete the Certificate IV in Aviation (Aviation Supervision) you will be on your way to a career managing the ground operations of an airport: airline services, airport operation and other ground services.

Gain these skills

- aviation safety
- airport environmental control
- airline and airport operations supervision
- coordinate accident and emergency procedures
- identify and respond to health, safety and security issues
- communicate effectively in the airline and airport working environment
- operational procedures in the modern aviation industry
- using technology and processing documents
- effectively deal with customers

You will gain valuable industry workplace exposure to airport and airline operations, as well as experience in an aviation environment within our fully equipped aircraft hangar facility.

This course has been developed in partnership with the aviation industry, and provides you with a professional, non-flying pathway to an exciting career in aviation.

Previous graduates of this course have found employment with both international and regional airports and within the broader aviation industry.

Your qualification prepares you for roles such as:

- Air Transport Professional
- Customer Service Manager

Further Study Option(s)

Certificate III in Aviation (Cabin Crew)

Certificate IV in Aviation (Aviation Supervision)

Diploma of Aviation (Aviation Management)
