

Certificate III in Screen and Media

National ID: CUA31020 | State ID: BGT8

Got an eye for design and a passion for all things media and tech?

Digital media has revolutionised the way we communicate, share and receive information in the modern world. Along with this comes a range of exciting job and career opportunities for savvy and skilled operators in the field!

This nationally recognised qualification will help you take the first step into the digital media industry, in roles such as Web Developer, Social Media Specialist or Multimedia Designer. Be guided by our expert team of lecturers who are industry professionals as you build solid fundamental skills in using digital technologies and multimedia, learning how to develop digital content and prepare video and photo assets. You'll be trained in how to manipulate digital images, create digital books, create a website, develop design assets and use social media platforms to enhance and build brands, products and businesses.

This entry-level course will equip you with an in-demand skillset and prepare you for work in the exciting screen, media and entertainment industries, and your knowledge will also be an asset across almost every industry in digital, multimedia or website focused roles.

Gain these skills

- use digital technologies and multimedia
- manipulate digital images
- create digital books
- create a website
- create design assets
- use social media to enhance business
- work with interactive content
- gain workplace health and safety knowledge

Your qualification prepares you for roles such as:
