

Certificate III in Landscape Construction

National ID: AHC30921 | State ID:BHN2

If you are looking for a career where you can design, create and build outdoor spaces, this qualification is for you.

You'll gain the practical skills and knowledge to design or renovate and maintain existing garden landscapes. You will learn how to select materials and plants for landscape projects and set out landscaping for a range of sites using stone, brick, block and timber structures. Training is provided in the areas of hard landscaping, irrigation, plant knowledge, soil nutrition, turf maintenance, landscape machinery use and horticultural safety. You'll also gain an understanding of environmental and sustainability considerations for landscaping.

Your qualification prepares you for roles such as:

Landscaper, gardeners, green keepers, trades assistant

Further Study Option(s)

Certificate II in Horticulture

Certificate III in Horticulture

Certificate III in Landscape Construction

Certificate IV in Horticulture
