Are you looking for an electronics career and current skills?

When you complete the Certificate II in Data and Voice Communications you will be flicking the switch on a career in electronics, as a data cabler or telecommunications technician (with additional training).

You will gain the knowledge and practical skills to install and maintain telecommunication cabling, secure electrotechnological equipment, assemble and dismantle components, use cabling drawings, standards, codes and specifications and workplace health and safety.

It includes ACMA (Australian Communications and Media Authority) requirements for open cabler registration.

Your qualification prepares you for roles such as:

Successful completion of this qualification provides you with the opportunity to gain entry level positions in sales and testing of electronic communications equipment or gain an apprenticeship/traineeship in electronic communications servicing. You will need to be employed and registered as an apprentice/trainee before you can commence apprenticeship/traineeship training.

Successful completion of this qualification provides you with the opportunity to gain an apprenticeship/traineeship in electronic communications servicing. You will need to be employed and registered as an apprentice/trainee before you can commence apprenticeship/traineeship training.

Further Study Option(s)

Certificate III in Electrical Fitting, Certificate IV in Electronics and Communications
