

ICT30120 Certificate III in Information Technology [Cyber Security]

National ID: ICT30120 | State ID:AC12

Beat the hackers at their own game

If you love computers, and you aren't afraid of the **challenges being presented by the dark web**; this Certificate III course will get you on your way to building a career in the vitally important field of Cyber Security. North Metropolitan TAFE offers you a pathway to gain the practical skills that you need to be part of **Australia's cyber defences**.

In this nationally recognised Certificate III program you will learn the fundamentals of **networking security and design** in our **Cisco** accredited program; system configuration and hardening; and Microsoft server management and protection in a hands-on practical environment.

We also offer further training in this booming field so you can continue to add to your **cyber security skills**, and as North Metropolitan TAFE is an authorised **Cisco Academy**, and **Microsoft Silver Partner**; you will also be in line to achieve valuable Industry Cisco and Microsoft certification.

Your qualification prepares you for roles such as:

Client support officer | IT technician | ICT operations support

Further Study Option(s)

Certificate IV in Cyber Security
