

CPP40216 Certificate IV in Surveying

National ID: CPP40216 | State ID:BAJ4

Equip yourself with the practical skills to support a surveying team by enrolling into the Certificate IV in Surveying. This course is an ideal stepping-stone to further your training in the surveying and spatial information industry. During your studies, you will learn how to use surveying technologies and software to capture, process and present electronic data. You will also have access to surveying equipment in order to produce computer-aided drawings and survey plans so that you can prepare and present Geographic Information System (GIS) data.

Practical skills are combined with important analytical skills like maintaining workplace safety and developing environmentally sustainable methods.

Your qualification prepares you for roles such as:

Successful completion of this qualification provides you with the opportunity to become a technical officer (spatial information services) and survey assistant.
